

IP Technology Labs

Secure Connectivity Simplified™

We design & manufacture
appliances that remove cyber
risks & lower costs

Eliminate risks from device based
cyber threats without rip-outs

Lower-costs, Higher Security,
and Increased Reliability & for
remote device networking

Do you have these Challenges?

Do you have remote IP Cameras, Fingerprint or Badge Readers, or OT devices that you need access too?

Do you have remote devices that you need access too but are on someone else's network you don't have control over?

How are you ensuring privacy for your unsecure legacy devices, so you aren't compromised?

What People Say - The Customer's we Keep

"Today I ran over 30 concurrent calls over tunnel and **it worked perfect without any lag and issue.** - Amir, VoipLeaders

"Our office is working fine – you **device is much reliable**"
– Essam, Accorac

"**Tunnel is solid!** no issues at all." - Sandeep, Dragon Oil/ENOC

"Product to report the **tunnel is up and stable**"
- Jon, Medical Billing

"*Very Clever!* ...the system **worked without any glitches.**"
– Diaa, Honeywell

"Once again, thank you for all the **excellent support**; an **excellent product** at a **very attractive price** level."" - Amer, Sony Dist

"**Saved the Day--** Your **redundancy kicked-in twice** when I was on holiday." - Dr. Robin, Veterinary Clinics
